# EMERSON

## Edge Controller Workshop

Join us for a hands-on 1/2 day Emerson Edge Controller Workshop where we dive into the powerful CPL410 PAC System and Linux Controller showing the benefits of implementing edge technologies in your automation systems.

Learn a variety of CPL410 fundamental features using:

- Machine Edition Configuration
- Variable Pushing
- Simple Python Programs
- Node Red
- OPC-UA
- Basic Linux Commands
- Web Applications & Dashboard
- SQL

**See you there!**
